What a transformation—from Karageorgevitch to plain Peter!

The paragraphers will soon have to warm up on their weather jokes.

A cyclone cellar under the palace might prove a convenience to King Pete.

It is certainly good form to refer to Karageorgevitch as the "unspeakable."

The new king's name isn't so bad by comparison. He was elected by the Skupshtina.

The Richmond people will now even up with the street car strikers by "striking the grit."

The Chicago hotel waiters said they had nothing to arbitrate. The hotel guests said they had nothing to eat.

The firemen will capture Durham in August, and the red-haired girl and white horse will be among the leading attractions.

Polonium and radium received in payment of subscriptions at this office. But positively no cord-wood, potatoes or coon skins.

You may as well prepare to answer questions. The North Carolina editors and reporters, and their *wives*, will be here early in July loaded with interrogation points.

The tobacco warehouse business will be overdone in this State. Then will come the "survival of the fittest." Wilmington, with her superior facilities, need not fear the result.

The Colombians will be very foolish if they refuse to accept that $10,000,000 from Uncle Sam. Their revolutions never last over a week and that amount of money would run the military establishment about six months.

The "House-Warming" edition of the Memphis *Scimitar* is a specimen of newspaper printing that has never been surpassed in the South, and that will compare favorably with anything of the kind executed in the North. That able and prosperous journal may well feel proud of its achievement.

An exchange says: "The report that the Western States are on fire for Roosevelt does not seem to fit somehow with the reports of the great floods out there." Oh! it fits all right. The floods came to show that the enthusiasm for Roosevelt had reached high-water mark.

GRAND COMMANDERY.

Annual Conclave, Knights Templar, of North Carolina Concluded Here Yesterday.

INSTALLATION OF OFFICERS.

Ceremonies Were Directed by the Right Eminent Grand Junior Warden of the United States—Appointed Officers—Entertainment.

The annual conclave of the Grand Commandery, Knights Templar, of North Carolina, which has been in session here since Wednesday came to a close yesterday morning with the installation of the newly elected officers and the transaction of routine business and that in connection with the secret work of the order. The installation was conducted with imposing ceremonies by the Hon. Frank H. Thomas, of Washington, D. C., Right Eminent Grand Junior Warden of the Grand Encampment of the United States, who has been here for all the Masonic meetings this week. The list of the officers with the exception of the appointed ones, who were announced yesterday was printed in these columns in connection with Thursday nights' proceedings. Those appointed yesterday by Grand Commander Norfleet were as follows:

Grand Standard Bearer—Martin S. Willard, of Wilmington.

Grand Sword Bearer—Wm. Anderson, of Charlotte.

Grand Warden—S. J. Cain, of Asheville.

Grand Sentinel—R. H. Bradley, of Raleigh.

In connection with the installation, Mr. Thomas made a fine address which was highly appreciated by a large number of Sir Knights in attendance. There was also a short address by Rev. W. C. Hern, of Talledega, Ala., Grand Commandery of his State.

The Commandery adopted a new code of laws and statutes for the State.

Raleigh was decided upon as the next place for the Grand Commandery in June 1904.

The various meetings of the Masons in Wilmington this week brought to the city a distinguished body of men and their entertainment was royal. The local committee of arrangements did all in its power to give their guests a good time and the verdict of the visitors is that it succeeded remarkably well. The committee was composed of Messrs. W. H. Chadbourn, W. A. Williams and C. C. Brown, of Concord Chapter No. 1, R. A. M., and Messrs. M. S. Willard, Eric Norden and U. M. Robinson, of Plantagenet Commandery No. 1.

The visitors were delighted with the handsome new chapter rooms, assembly halls, etc. of the new Temple here, which were elaborately decorated for the sessions by Rehder Bros., the florists.

LOCAL DOTS.

THE UNITED STATES COURT.

Non-Suit in Burbank Damage Trial—R. G. Lawrence Appointed a Commissioner at Lumberton.

The United States District and Circuit courts have practically completed the work of the adjourned term in Wilmington this week and Judge Purnell has gone to join members of his family, who are spending some time at Wrightsville Beach.

The District Court convened as usual yesterday morning, but the only business transacted was the appointment by Judge Purnell of Robert O. Lawrence, Esq., of the legal firm of McIntyre & Lawrence, of Lumberton, a United States Commissioner for the Eastern District, to succeed the late E. K. Proctor, of the same town.

In the Circuit Court the hearing of the damage suit brought by Dr. Thos. S. Burbank against the Southern Bell Telephone & Telegraph Co. for the alleged unlawful removal of a 'phone from his residence in this city Aug. 6th, 1900, was completed. Dr. Burbank was represented at the hearing by ex-Judge E. K. Bryan and the amount of damages asked was $5,000 punitive and $50 actual. Messrs. Davis & Davis appeared for the defendants, having secured the removal of the suit from the State court at the January, 1902, term at Wilmington.

Upon the close of the plaintiff's testimony, the court having intimated its opinion that the plaintiff could not recover punitive damages in the action, but only actual damages, the plaintiff thereupon submitted to a non-suit. It was ordered by the court that the defendant go without day and recover its costs of the plaintiff and his sureties to the prosecution, to be taxed by the clerk.

Witnesses examined were Dr. Burbank, in his own behalf, Messrs. N. B. Rankin, Jos. E. Lippitt and George Harriss, for the plaintiff; Manager T. S. McManus and Messrs. Schulken, Bragg, Ernest and Willie Peschau for the defence. Lewis A. Kennedy, of Sampson county, who became ill during the trial, was excused, both sides having consented to go on with eleven jurors. It is learned that another suit will be probably brought by Dr. Burbank with an amended complaint, specifying the punitive damages claimed.

IMPROVEMENTS TO CITY CLOCK.

Time-Piece in First Presbyterian Church Tower Now in Thorough Order.

Repairs to the city clock in the tower of the First Presbyterian church have been completed by Mr. G. C. Simmons, the contractor, and yesterday a number of city officials and others, including Chairman Hashagen, of the former city finance committee, were invited by Mr. Simmons to visit the church and see the improvements, which they did. The clock was placed in the tower some years ago by private citizens in the neighborhood, who subscribed $700 for the same. For a number of years it has been badly in need of repairs, and the city authorities a few months ago took the matter up and made an appropriation to put it in order, the contract having been let by Chairman Hashagen, of the finance committee, to Mr. Simmons.

The entire machinery has been overhauled, the tower carpeted and lined with white cloth to prevent dust and dampness from entering. A five-foot sectional dial has been placed on the four sides of the tower and 16 electric lights placed on the interior for the purpose of illuminating the faces. The improvement is welcomed by the community at large, and especially by residents in the neighborhood.

Mr. McDougall Resting Easily.

Mr. J. H. McDougall, the victim of the explosion of a blast furnace in the foundry of the Wilmington Iron Works Thursday morning, was resting comfortably last night at the James Walker Memorial Hospital and his condition gives great hope, although it cannot be said that he is fully out of danger. He rested very well during the night following the accident and also on yesterday. His wife arrived during the day from Columbia, S. C., and called to see him at the hospital yesterday afternoon.

Cotton and Naval Stores.

The weekly statement of receipts of cotton and naval stores at the port of Wilmington was posted yesterday at the Chamber of Commerce as follows: Cotton, 5; spirits, 667; rosin, 1,791; tar, 1,134; crude, 602. Same week last year: Cotton, 805; spirits, 574; rosin, 2,508; tar, 858; crude, 528. The crop year receipts to date are as follows: Cotton, 327,663; spirits, 3,407; rosin, 13,400; tar, 11,375; crude, 5,806. Last year: Cotton, 356,945; spirits, 3,853; rosin, 20,094; tar, 12,649; crude, 4,888.

Matinee This Afternoon.

There will be a matinee to-day at 4 P. M. at the Beach Casino. To-night will witness the last performance of the present company, all members of which have become local favorites. The Harts, James and Davis, and Little Dorothy, leave Sunday for Atlantic City. Monday brings the Rumley Sisters' Big Comedy Company, and the public is promised a fine bill for the week, consisting of farce comedy and vaudeville.

ADJOURNED MEETING.

Wilmington Presbytery in Session at First Church Yesterday Afternoon.

A NUMBER IN ATTENDANCE.

Promising Candidate for the Ministry Received--Educational Matters Attended To—Rev. Mr. Johnson Placed in Charge of Burgaw Circuit.

An adjourned session of the Spring meeting of Wilmington Presbytery was held in the First Presbyterian church, this city, at 3 o'clock yesterday afternoon, Rev. Robert M. Mann, of Clinton, presiding as moderator, and Rev. A. McFadyen, of Clarkton, present as stated clerk. The primary object of the meeting was for the purpose of receiving under the care of Presbytery as a candidate for the ministry, Mr. Henry McFadyen, a son of the Rev. A. McFadyen, of Clarkton, but while in session much other business of importance was transacted by the body. Young Mr. McFadyen has just graduated at the University of North Carolina, and is a young man of very bright promise. His reception yesterday by the Presbytery was with many congratulations.

Those in attendance upon the session yesterday other than those named above were: Rev. V. H. Starbuck, of Ivanhoe; Rev. R. M. Williams, of Wallace; Dr. A. D. McClure, Dr. J. M. Wells, Rev. C. W. Trawick, of Wilmington; Rev. Peter McIntyre, of Faison, and Ruling Elders B. F. Hall, J. B. Hand, of Wilmington; I. N. Johnson, of Clarkton, and Neill Johnson, of Ivanhoe.

Rev. Tom Johnson, pastor in charge of the Burgaw group of churches, succeeding Rev. D. P. McGeachy, was received from Concord Presbytery and arrangements will be made for his installation as pastor at the Fall meeting of Presbytery.

Upon report of a special committee, consisting of Revs. C. W. Trawick, R. M. Williams and Ruling Elder J. C. Stewart, two of whom have just returned from an investigation of the field, it was resolved to establish a Presbyterian Parochial school at Ivanhoe, in the Black River group of churches.

A commission consisting of Dr. McClure, Rev. Peter McIntyre and two ruling elders from each of the churches at Mt. Olive and Faison, was appointed to organize a church at Calypso, midway between the points named, on the first Sabbath in July.

A committee consisting of Rev. C. W. Trawick (chairman), Rev. J. M. Wells and Ruling Elders Philander Pearsall and W. H. Sprunt, were appointed to have general oversight of the schools being maintained under the care of Presbytery.

The session yesterday adjourned until the Fall meeting at Wallace, October 21st.

ALL RECORDS WILL BE SMASHED.

Atlanta and Charlotte Excursions With Bankers' Convention Next Week.

One of the biggest excursions of the season will arrive Tuesday morning from Atlanta under the auspices of Circle No. 2, King's Daughters, of the Gate City. An elegant train composed of Pullman drawing room, buffet sleepers and day coaches will leave Atlanta at 6 P. M. Monday over the Seaboard Air Line and will be run solid to the beach without change. Returning the excursion will leave the beach on Thursday evening. The round trip fare is only $4.

On Wednesday, 24th, the big two-day Baptist excursion from Charlotte will arrive and there will also be from 200 to 250 people there in attendance upon the Bankers' Convention. With one day excursions from several points during the week, it appears reasonably certain that next week will be a record-breaker for the seashore.

COMPTON TO BE REBUILT.

Wilmington and Little River Steamer Taken to Norfolk Last Night.

The steamer "Sanders," of the Wilmington and Little River Transportation Co., left last night at 10 o'clock, towing the steamer "Compton" to Norfolk, where she will undergo a thorough overhauling from the recent fire at Skinner's shipyard and will be lengthened 40 feet, making her an up-to-date sea-going passenger and freight steamer. She will be laid up several weeks at Norfolk for the repairs. The "Sanders," which has the tow, is in charge of Capt. W. A. Sanders, master; Capt. W. A. Snell, coast pilot; Chief Engineer Joe Warren and the regular crew. Mr. Ed. Moore, the clever bookkeeper for the steamer's agents, Messrs. Stone & Co., is also aboard.

WOMAN'S MISSIONARY UNION.

Annual Meeting Closed at Chadbourn After Series of Delightful Sessions—Will Meet Next at Faison.

Mrs. Jackson Johnson, of Town Creek, president of the Woman's Missionary Union of Wilmington Presbytery, returned home yesterday from the annual meeting of the Union held this week at Chadbourn. Mrs. Johnson was delighted with the entertainment of the body by the people of Chadbourn, and spoke enthusiastically of their hospitality.

The meetings of the Union were well attended and were most profitable. Among those in attendance were Mrs. Johnson and daughter, Miss Catherine Johnson, and Misses Mattie and Carrie Taylor, of Town Creek; Mrs. D. M. Fennell, recording secretary; Miss Eliza Murphy, of Atkinson, corresponding secretary; Mrs. J. C. Stewart, Mrs. W. H. Chadbourn, Mrs. D. Hanna and daughter, Miss Ethel, of Wilmington; Misses Catherine Cromartie and Mary Colvin, of Ivanhoe; Miss Minnie Lamb, of South River; Miss Margaret Pierce, of Warsaw; Miss Annie Moore, of Burgaw, and Miss Annie Belle Black, of Cronly.

The feature of the meeting was a splendid address along general lines by Dr. A. D. McClure, of Wilmington. The next meeting of the Union will be held at Faison in June, 1904.

THE SUBURBAN CAR AFFRAY.

Warrant Sworn Out for S. F. Harmon, Followed by His Arrest Yesterday.

Warrants were sworn out yesterday before Justice John J. Fowler causing the arrest of Mr. S. F. Harmon, formerly proprietor of the Dixie Cafe and a well known citizen of Wilmington, who is charged with severely beating Conductor "Billie" Jones, of the suburban car line early Thursday night. Mr. Harmon gave bond in the sum of $200 with his attorney, Geo. L. Peschau, Esq., as surety, and the case will be heard Monday morning at 9:30 o'clock. The C. R. L. & P. Co., determined to protect its conductors to the last letter of the law, has employed Bellamy & Bellamy and Davis & Davis to prosecute the case.

Mr. Harmon is a large man and Conductor Jones is a man of small physique, therefore his injuries are very severe and he is still laid up at his home with a badly sprained leg and a horribly beaten face. However, he was resting very well last night. His assailant is said to have expressed great regret at his conduct and has offered to pay all expenses and the salary of Conductor Jones while he is incapacitated. The charge against Mr. Harmon is assault and battery and committing a nuisance.

THE MAYOR'S COURT YESTERDAY.

One Sent Over for Judge Peebles—More Draymen Up—An Impudent Negro.

Joe Hill, alias "Monkey Joe," a notorious negro thief, was sent over to jail by Mayor Springer yesterday to answer in the Superior Court next week the charge of stealing a copper soda water tank from the rear of Shepard's drug store, on Market street. The negro was arrested by Policeman G. R. Holt Wednesday night about 11 o'clock as he was hiding the tank near a junk store, where he intended to sell the property upon the following morning.

Six drivers, charged with operating drays without license, were required to pay the cost in their respective cases. An excursionist who was drunk and made a spectacle of himself in front of The Orton was fined $20 and costs and several other offenders were "touched up" for amounts ranging from $2.65 to $5. George Wilson, an impudent negro whom the community could do very well without, was fined $10 and costs for disorderly conduct Thursday night at Fifth and Walnut streets.

Mr. Smith Will Accept.

Mr. J. D. Smith announces that he will accept the position of secretary and general manager of the High Point Insurance Co., his election to which office was announced in these columns yesterday. Mr. Smith will move with his family to High Point about Aug. 1st. He is one of Wilmington's most experienced and capable insurance men and the position to which he has been elected is an important one. He is at present secretary and treasurer of J. F. Garrell & Co., Incorporated, and that firm will regret exceedingly to lose his services. The removal of the family from Wilmington will also be regretted by many friends socially.

Will Sue C. R., L. & P. Co.

Percy Wells, of Delgado, by his next best friend, J. C. Wells, has given notice through his attorneys, Messrs. William J. Bellamy and Walter P. Gafford, that he will bring suit for the recovery of damages against the C. R., L. & P. Co., by reason of his ejection a few weeks ago from one of the suburban cars of the defendant company near the sound. The complaint has not been filed and the amount of damages asked is not known.

Superior Court Next Week.

New Hanover Superior Court for the trial of both civil and criminal cases will convene Monday, Judge Robert B. Peebles presiding. There are 50 criminal cases on the docket including the charge of murder against Robert and Walter Thomas, colored boys, who are alleged to have stabbed another negro to death in Cato Boney's ranch in "Brooklyn" last Winter. Next week's term is for only one week.

COLUMBUS OUTLAWS.

Father and Son, Charged With Murder, Arson and Robbery, Are Captured.

GOVERNOR OFFERED REWARD

H. B Register, Jabel Register and R. A. Rockwell, Implicated in Most Atrocious Crime, Are in Jail at Whiteville—Excitement.

H. B. Register and son, Jabel Register, the white men of Columbus county, implicated by confession of Cross Edmondson in the horrible murder, on the night of March 29th, of Jessie Soles, white, and Jim Staley, colored, in their home ten miles from Whiteville, in the same county, are now languishing behind prison bars in Columbus jail, and their captors, Messrs. E. H. Cook and William Hall, and a third man named Register, are laying claim to a reward of $300 each for the prisoners, offered by Governor Aycock, and a supplemental reward offered by the county in which the crime occurred. The elder Register was captured Tuesday of this week, and yesterday morning the son was captured by the same men at his father's home at Vineland, a short distance from Whiteville. Later in the day, R. A. Rockwell, son-in-law of H. B. Register, was also arrested and placed in jail for harboring Jabel, the charge being accessory after the fact. Donald McRackan, Esq., of Whiteville, and probably two Wilmington attorneys have been retained as counsel for the men.

The elder Register was given preliminary trial before S. B. Lumsden, Esq., yesterday and committed to jail in default of bond in the sum of $10,000. The other men will likely be given a hearing next week.

The town of Whiteville is greatly excited over the capture and it was thought that the prisoners would be brought here on last midnight's train for safe keeping, but they did not arrive. The crime with which the men are charged is one of the most atrocious in the criminal annals of the State. Cross Edmondson and another white man, who were arrested immediately after the murder and who are still in jail, made a confession and warrants were at once sworn out for the Registers, but they disappeared and were then outlawed, the Governor offering the rewards on May 2nd.

It will be remembered that Soles and the negro lived alone in an isolated house and were supposed to be moonshiners with about $1,000 on the premises. The men were murdered and robbed and the house burned down on their bodies. Edmondson says in his confession that on Saturday before the killing he met Jabel Register at Duvall's stables and he told him his (Register's) father wanted to see him at the house. Register's father, H. B. Register, told Edmondson he had a scheme to make money easy and wanted help; the way to get the money was to rob Staley who had at least $1,000. Register said "kill him if he flickers; he's only a nigger and the people want to get rid of him anyway." Edmondson said he got H. B. Register's gun; Jabel took his and they all went down in the vicinity of Soles' house; laid around until Sunday night when they went up to the house and Jabel shot them through the window and went in the house. Edmondson said he did not know Jabel had set the house on fire until they had gone some distance, after the robbery.

Gave a Birthday Party.

Miss Bessie Sasser, the attractive little daughter of Mrs. O. C. Sasser, gave a delightful birthday party to a number of her young friends at her home, Seventh and Walnut streets, from 5 to 7 o'clock yesterday afternoon. Games, refreshments and other entertaining features were enjoyed.

SEVERE HAIL STORMS IN NASH.

Entire Destruction of Cotton and Tobacco Crops Reported from Nashville.

The Property Owner.

Iron and tin roofs are oftentimes neglected by reason of their being on top of a building and out of sight. Metal is more difficult of protection than wood, and a roof paint should be even more carefully selected than the paint for doors, windows and other portions of the building. The rust producing elements—heat of the sun, rain and snow—will soon destroy the ordinary roof paint, and it is of special importance that a paint be used that will give perfect protection and put off the necessity of frequent renewals. The Joseph Dixon Crucible Company, Jersey City, N. J., have manufactured Dixon's Silica Graphite Paint for a number of years, and it is being extensively used in all parts of the world for the protection of iron and tin roofs. The property owner will save money in labor and money by writing the company for descriptive matter. † Joseph Dixon Crucible Co.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 20.

THE ROOT OF THE TROUBLE.

New York *World*: There are two radical causes for the postal scandal, for both of which the party in power must bear the responsibility.

The first is the appointment to and retention in responsible offices in the department of notorious partisan spoilsmen. The second cause is the surplus revenue, which leads to the extravagant extension of the rural free delivery system—chiefly for politics and "graft."

When the President appoints to the head of the department a machine politician like Payne, and entrusts the patronage and contracts of the postal service to men like Clarkson, Heath and Tyner, precisely such developments as are now staggering the Administration are logically certain—indeed they are invited.

If President Roosevelt selected Mr. Payne for Postmaster-General for any other than political reasons bearing directly upon his nomination, nobody has yet suggested what that reason was. If men like Heath and Tyner have been permitted to set an example of using the people's postal service to promote the political and personal fortunes of their Congressional backers, the President who put and kept them in office—knowing their reputation and their methods—cannot escape the responsibility.

That the cost of the free delivery system should have swollen to nearly $25,000,000—a large proportion of the new routes being in the States of Ohio, Indiana, Illinois and Iowa—is due to the existence of a large surplus revenue wrung from the tax payers to sustain a tariff which "shelters monopoly" and promotes campaign contributions. Were the cost of this unwarrantable enterprise of carrying the mails over hundreds of routes upon which the residents do not average one letter a week to be met by direct new taxes it would never have been incurred. Having "extended the service" for politics only, it was natural that the carriers should be utilized for partisan and commercial purposes, as the evidence shows that they have been.

President Roosevelt still poses as a civil-service reformer on the strength of his support of the reform system for subordinates in the classified service. But an Administration that turns the patronage of all the great States over to bosses like Platt, Quay and Hanna, and that converts the entire postal service into a political machine to promote the renomination of the President and to assist in the election of a Republican Congress, has no right to be "pained and surprised" at such scandals as are now forcing their way to the light. Nor can it escape responsibility for them except by insisting upon the fullest publicity and by bringing to punishment every guilty man from top to bottom.

A JOY OF JOURNALISM.

Atlanta *Constitution*: A few days ago Colonel Alexander K. McClure, the veteran editor and Nestor of the Philadelphia *Press*, said that the happiest days of his journalistic career were those in which he was "the editor of a country weekly paper in Western Pennsylvania."

There are thousands of the older men in the profession to-day who can heartily say "amen!" to Colonel McClure's experience. They remember those joyous old days in some ramshackle print shop in a country town; the old Washington press; the roller boy; the roller mould and the casting of a new roller; the sitting up at night to mail the edition of six hundred—that six hundred more formidable over public affairs and world interests than the charge made at Balaklava by that other six hundred of old England! The country editor—who is his peer? He writes and the people hardly contain their patience a week to know "what he has wrote" on the burning issues of the day! He gets invitations to all functions, free passes to all shows, appointed on all sorts of commissions where there is no pay, gets cake from the wedding, cord wood for subscriptions, and, occasionally, "gets it in the neck" from a contemporary.

The country press is an inseparable factor from the forces that make up our civilization. It is on and of the soil. It is the mirror of the human problems of its environment. It is more nearly the organ of public opinion than the mammoth journals whose strongest purposes are commercial.

Any historian who would write knowingly and truthfully the history of these times must get the bulk of his material from the country newspapers. They are the busy bees who gather the pollen of all the indigenous blossom of their habitat and compress these into the columns from which the honey of true human history is extracted.

Every community owes the prime duty of support to its local press. If a man can afford to take only one paper he should take his home paper. If he can go further and take a daily, let that be but the supplement to his county paper. The old Greek adage "know thyself" should be expanded into "know thy neighbors," and the way to do that is to support your home paper. There is no better or more helpful asset to any county than a good newspaper, filled with neighborhood news, and dealings with all issues of common interest as the weekly press usually does—fairly and honestly.

CURRENT COMMENT.

—Though the Republicans have been but six years in full control, it is now ten years since they began winning elections, and repeated successes have had the effect of intoxicating their brains. Hence their determination to "make their own precedents," and to inaugurate an era of extravagance, loose administration and corruption. The rascals have not only multiplied, but the old rascals have become bolder. They are drunk with continued success and the prospect of a long lease of power. The time has again come to "turn the rascals out."—*Louisville Courier-Journal* (*Dem*).

—"What is Rooseveltism?" asks an esteemed contemporary. If we followed the Republican precedent set when Mr. Cleveland was President, we should answer the question as follows: There are 90,000 textile workers on a strike in Philadelphia. There are thousands of men on strikes in Chicago. Ninety per cent. of the building operations in New York city are at a standstill, 110,000 workingmen are idle, 5,000 families want food, 20,000 laborers have been driven to other cities on small wages, 15,000,000 has been lost in wage alone, and there is $200,000,000 of building capital idle. At Washington the Postoffice Department is honeycombed with larceny, bribery, embezzlement and other violations of the law. Throughout the country at least half a million men are engaged in strikes and Theodore Roosevelt is President of the United States. We do not vouch for the propriety of this kind of logic, but we are merely following a Republican example. — *Memphis Commercial-Appeal, Dem.*

—For very shame's sake, the Northern newspapers will soon have to stop finding fault with the Southern States for lynching negroes, if the lynching epidemic continues to manifest itself nearer home. There have been more reports of lynchings from the Northern States recently than from the Southern States. The Northern lynchings do not find their inspiration in race hatred. A Northern mob is as likely to choose a white man as a negro for its victim, but this distinction doesn't alter, for better or worse, the character of the Northern lynching as a manifestation of lawlessness, savagery and unfitness for self-government. Judge Lynch is getting so that he "knows no North, no South, no East, no West." The whole country seems to be pervaded with a spirit of disregard and contempt of the law. It's a bad tendency, threatening the very life of the Republic.—*Rochester Democrat and Chronicle.*

— Newbern *Journal*: A large black bear was killed Tuesday evening by Amos D. Koonce, who lives near Rhem's. Koonce was attracted by the loud squeals of a hog just across the road from his residence, in a pine thicket. Grasping his rifle, he ran to the noise and found an enormous bear attacking one of William Scott's hogs. One shot from the rifle did the work for him. The bear standing on haunches measured five feet, and a foot was exhibited at the *Journal* office which measured four inches wide and seven long

— Concord *Tribune*: A horrible crime was committed in Ashe county Sunday when Crick Davis cut two men and his wife to pieces with an axe. Alfred Barker and son, Levi, of Virginia, were spending the night with Davis. Hardly had they retired when Mrs. Davis heard a noise, and on looking towards where the Barkers were sleeping, saw her husband with the axe, cutting the Barkers to pieces. She sprang out of bed and tried to keep her husband from killing the old man, Alfred, and immediately Davis gave her two blows that sent her to the floor. Levi had been killed by the first blow, that had split his head half open as clean as one splits a hog's head in slaughtering. Alfred had been saved apparently by Mrs. Davis, as he had time to crawl out of the bed and into a field of rye, close by. Nevertheless, he was bleeding like a hog and will die, having received the axe up to the hilt in his stomach and having his right arm cut off. Mrs. Davis will die. The murderer has been jailed. He is thought to be crazy.

— Salem special to *News and Observer*: An unsuccessful attempt was made this morning by an unknown negro to criminally assault Miss Jennie Robertson, the grown daughter of one of Salem's best citizens. Owing to the absence of her father and brothers Miss Robertson drove the cows to the pasture, half a mile from the house. She was fastening the gate to the pasture, when a negro man appeared and called upon her to stop. Miss Robertson began running and her would-be assailant followed her until he came in sight of some houses. He then ran behind a tree. Miss Robertson hurried home and related her unpleasant experience to her mother, who at once seized her husband's shot gun and, accompanied by her daughter, went after the guilty party. They searched the woods into which he ran, but they were unable to find him. Officers with blood hounds have been out all afternoon, but they failed to catch the negro. This is the second attempt within a month near this city.

Rheumacide

Continues to make Miraculous Cures

READ THIS LETTER:

ALMOST A MIRACLE.

DILLON, S. C., Aug. 18th, 1902.

Gentlemen:—In September, 1899, I took rheumatism in a very bad form. In a month after the disease started I had to give up my work and go to bed. It continued to grow worse until my arms and hands were badly drawn, so much so that I could not use them. My legs were drawn back until my feet touched my hips. I was as helpless as a baby for nearly twelve months. The muscles of my arms and legs were hard and shrivelled up. I suffered death many times over. Was treated by six different physicians in McColl, Dillon and Marion, but none of them could do me any good, until Dr. J. F. Ewing, of Dillon, came to see me. He told me to try your "RHEUMACIDE." He got me one bottle of the medicine and I began to take it and before the first bottle was used up I began to get better. I used five and a half bottles and was completely cured. That was two years ago, and my health has been excellent ever since. Have had no symptoms of rheumatism. I regard "RHEUMACIDE" as by far the best remedy for rheumatism on the market. I cannot say too much for it. I have recommended it to others since and it has cured them.

Will say further, that I began to walk in about six days after I began to take "RHEUMACIDE," with the aid of crutches; in about three months after I began to take it, I could walk as good as anybody, and went back to work again.

Very truly, JAMES WILKES.

FARM·FIELD AND GARDEN

A NEW SPECIALIST.

To Look After the Interests of the Farmers' Institutes.

Farmers' institutes to the number of about 2,700 in forty-four states being now held annually, with attendance estimated at 800,000, the secretary of agriculture has established a new position—that of farmers' institute specialist—and appointed to fill it after civil service examination Professor John Hamilton, now secretary of agriculture of Pennsylvania, whose portrait appears. This gentleman was born in 1843 and lived on a farm till the outbreak of the civil war, entering the ar-

my at the age of eighteen. Later he became farm superintendent, business manager and finally professor of agriculture for ten years in the state college, of which, we believe, he is still trustee. He was one of the original members of the state board of agriculture and when the new department was organized in 1895 became deputy secretary and director of institutes. He has also been president of the American Association of Farmers' Institute Managers.—Country Gentleman.

THE APIARY IN SPRING.

The Time When Care Counts Most. Dwindling and Starvation.

There is no time during the entire year that we can do more to increase the value of the apiary than in the early spring, about the months of April and May. Many good colonies may be saved outright by timely attention, and the force of worker bees will be double when the honey season opens if proper attention is given at this time.

There are more losses of bees during the month of April perhaps than any other month in the whole year, and we might be safe in saying all the other eleven months combined. This is due to two causes—spring dwindling and starvation. The last cause is the more disastrous and more easily remedied. Spring dwindling is the result of bad wintering, for which there is but little remedy. But there is no excuse for any one to let his bees starve to death through sheer negligence when perhaps they were robbed the fall previous and made to give up not only their surplus, but their winter's food besides.

Every colony of bees should have as a reserve store in early spring ten pounds of honey at least, and if found very much short of this they should be fed. Feeding may be commenced—that is, liquid feeding—as soon as the bees begin to fly frequently and kept up until the colony has a sufficient amount to insure it safely through until it can gather honey.

All colonies that have a shortage of stores in early spring will as sure have a shortage of bees when the honey season opens. This always means a half crop of honey at the best and in many cases no crop at all, even if the season is a good one.

A pound of food now means a pound of bees when the honey season opens, which may add half a hundred pounds of honey per colony to the crop.

Bees consume great quantities of honey in springtime to rear their brood, and brood rearing will not proceed without it. It frequently occurs that they will consume their own brood to subsist when thus running short of stores. This may be detected by the appearance of pieces of dead brood found at the entrance of hives, and it may be remedied at once by feeding.—A. H. Duff in Farm, Field and Fireside.

One of those statistical genuises connected with the agricultural department at Washington has figured out that the value of the manure product of the country is $2,071,400,000. Figures are great things.

The prairie dog in western Kansas and Nebraska instead of following the Indian and the buffalo is increasing in numbers and is one of the biggest nuisances connected with farming in that section of the country.

Three years ago a keg of nails, a hundred pounds of pork, a cord of wood and a ton of soft coal each brought about the same price, about $4. Today the nails are worth $2.75 and the wood $5, the pork $7 and the coal $5.

The lawn should have a top dressing of well rotted stable manure each spring, as the continuous mowing tends to enfeeble the grass roots; but mind that this manure has been well rotted, otherwise a lot of foul seed will be scattered over the lawn.

KITCHEN GARDENING.

Profitable Vegetables and Fruit. Things Easy to Grow.

Dumbbell exercises and physical culture, excellent though they be, are not "in it" for the joy of seeing the growth of things that have been planted by one's own hand, says a New England exchange in urging the advantages of a home kitchen garden. Before the house is painted, the blinds put up or the furniture arranged and the draperies hung begin planning an asparagus bed. Once established, it will mostly care for itself and yield a hundredfold. All it requires is a yearly supply of rich dressing and a covering of leaf mold to give moisture to roots and prevent weeds from sprouting.

A careful statistician has estimated that in the value to be obtained from land the raising of asparagus exceeds all other vegetables and strawberries all other fruits. Of fruits and vegetables that give most satisfaction with least expenditure of labor probably a bed of asparagus and a row of currant bushes stand first, for, once established, they yield bountifully for years.

Working Specifications.

Never work the ground while it is so wet as to clog. Better wait a week for it to dry. When the soil is in right condition, after sowing the seeds press the earth firmly down upon them. Observe the same precaution in transplanting. Press the soil firmly about the roots, then water freely.

Another rule worth remembering is to weed your garden before the weeds appear. A little time spent stirring the ground with a small steel rake or pointed hoe will destroy thousands of underground rootlets. Nowhere does "a stitch in time" so surely "save nine."

All hardy vegetables should be sown by the middle or last of April. If delayed until the warm days in May, the crop is likely to be late and inferior. True, the air is still chilly, but "the marriage of earth and sky" has begun, and magnetic currents are at work, lifting the sap and swelling the buds.

The Choice of Fine Versus Coarse.

In a small garden it is better to forego the raising of the coarser vegetables, unless it be a few beets, parsnips and early potatoes, using the land for choicer varieties, some of which, such as lettuce, peas, sweet corn and perhaps cucumbers and celery, can be planted so as to give successional crops.

Early peas and lettuce should be sown by the latter part of March. Enough lettuce can be germinated in a small box in some sunny kitchen window. Transplant by the middle of April in rows from twelve to fifteen inches apart, with the plants seven or eight inches apart, using plenty of well rotted stable dressing and watering often and abundantly, thus forcing a rapid growth, which will soon produce large heads, exceedingly tender. A fresh box of seeds should be sown every six or eight weeks during summer that the table may be supplied until November, since light frosts do not affect strong plants.

Swiss chard, or sea kale, should find a place in every garden. The seed may be sown in May and transplanted in July two feet apart. These greens, when touched with frost, are the most tender and delicate of all the cabbage tribe. Cover the crowns during winter, and in the early spring blanch the first shoots by covering the same as celery is treated and cut for use before leafing.

Other Good Items.

Parsley is best grown in a large box near the house, where it can be conveniently watered and picked during the summer. In germinating remember that these little seeds can neither be hurried or coaxed. They sometimes lie dormant in their moist, sunny bed for six long weeks before a shoot appears.

Sweet corn can be planted about the middle of May and until July for successional crops.

Cauliflower, egg and tomato plants can best be obtained at the nursery and set out about the middle of May. A hundred celery plants can be bought for a cent apiece and set out in July. These, with a row of choice white lima pole beans, one or two hills of cucumbers and perhaps a few sweet herbs, will afford sufficient variety as well as the nourishment so craved by the appetite during the summer months.

The Hives.

Hive stands should not be less than six or eight inches high to keep them safe from toads. In the evening toads can be seen going about in the apiary seeking what they can find.

Setting hives level is a great preventive of ill formed sections. Putting starters in sections above and below will generally secure nice, well formed ones.

Unless you like bees you had better let them alone, for not more than one man in fifty can handle them successfully. It is a good deal the same way with fruit, poultry and sheep.

An extensive experiment is being made by the government in the effort to make trees go on the sand hills of Nebraska. A large tract of these hills will be planted with red cedar and jack pine.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, June 19.—The cotton market opened weak at a decline of six to eight points under lower cables and a continuation of the more or less general selling yesterday, which was again encouraged by a fairly favorable weather map and larger receipts. But after certain operations had lost another point or two, the list was rallied sharply by a weather forecast indicating the probability of lower temperature and bull support from New Orleans, accompanied by fresh reports of crop damage. Again the room attempted to check the advancing tendency but the late sight for the week showed another decrease as compared with the figures of the corresponding week last year and after a narrow reaction the list was once more forced slowly upward under further bull support and covering with the market closing at just about the best point of the day, being firm at a net advance of one to six points. Total sales futures were estimated at 250,000 bales. Port receipts again exceeded early estimates, turning out 3,800 bales against 2,283 bales last year, and the New Orleans estimate for to-morrow was heavy, but these factors exerted little influence on sentiment in view of the very evident support the market was receiving from Southern sources, which, with more bad weather expected, checked selling, while commission houses had orders on the buying side of the account.

NEW YORK, June 19.—Cotton quiet at 12.40; net receipts 290 bales; gross receipts 500 bales; stock 163,804 bales.

Spot cotton closed quiet; middling uplands 12.40; middling gulf 12 65c; sales 1,200 bales.

CHEERLESS OUTLOOK

How the Future Was Brightened for a Well Known Wilmington Man.

With an aching back that makes the daily toil a torture, and that robs sleep of its restful properties, the future holds out little promise to a man, no matter how successful he may be in business. To such a sufferer relief comes like the dawn of the Arctic day. A Wilmington business man who found relief of this sort tells his story of his case.

A. V. Horrell, proprietor of restaurant at 505 South Fourth street, says: "I used Doan's Kidney Pills and they did me a lot of good. I have been a great sufferer with backache, which I supposed to be rheumatism, and used all the rheumatic cures I could get hold of. I was completely laid up with it and could scarcely get around, to do any work was simply out of the question. My sister, reading about Doan's Kidney Pills and knowing how I suffered, went to Bellamy's drug store and got me a box. They acted like a charm. My backache or rheumatism, whatever it was, has entirely left me, and I give all the credit to the use of Doan's Kidney Pills."

For sale by all dealers. Price, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

ished with two coats of flat varnish. The bathroom and kitchen are provided with modern plumbing and fixtures.

This house can be built complete for $2,800. It is designed for construction on a narrow lot.

Disinfect the Yards.

The poultry runs or yards will need disinfecting at least twice a year if the ground is to be kept in a fit condition for the fowls to run on. They should be well sprinkled with some good disinfectant or given a thorough top dressing with air slaked lime. Plow or spade them up after using the disinfectant and sow them to oats in the spring or wheat and rye in the fall. Let the grain get well sprouted before the poultry are again allowed to use the runs. Such precautions will often prevent serious trouble and should always be observed wherever permanent poultry runs are used.

That Old Thunder "Gag."

Thunder does not kill chicks in the shell nor does heavy blasting or other heavy jars. Naturally if lightning should strike a building in which an incubator is being operated or hens are sitting, the eggs would be likely to be injured, but they might not. The thunder theory is exploded and the old hen cannot use that as an excuse for a poor hatch any longer.

Chicken Conundrums.

Why is the first chicken of a brood like the mainmast of a ship? Because it's a little forward of the main hatch.

Why is a chicken just hatched like a cow's tail? Never seen before.

Why should not a chicken cross the road? It would be a fowl proceeding.

Why is a hen immortal? Her son never sets.

Women's Headaches

PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up.

I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain.

Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Mrs. Wilhelmina Snow
Treasurer, Portland Economic League.

Headaches are the danger signals of coming disease. Malarial headache predicts fever. Bilious headache foretells liver troubles. Neuralgic headache shows overworked nerves. Periodical headaches tell of female weakness.

Both men and women suffer the first four kinds of headaches, but the last, periodical headache, falls only to the lot of women and cannot be mistaken, for it is the unerring sign of irregular menstruation and bearing down pains.

No woman need give up and accept a life of suffering unless she allows herself to despair. Mrs. Snow, in her letter shows every suffering woman how not only suffering can be avoided but how weakness can be conquered and the best health assured. She tells, how even when the best medical aid failed, Wine of Cardui worked a complete cure.

Completely prostrated by nine months of suppressed menses, blinded by headaches and racked with pain she was made a strong and healthy woman again. One week of suppression is a serious thing. But nine months! Think of it! Can your suffering be greater than hers? Can your case be more seemingly hopeless?

Remember with Wine of Cardui no case is hopeless because this great remedy cures permanently nineteen out of every twenty cases and never fails to benefit a case of irregular menses, bearing down pains or any female weakness. Mrs. Snow's attention was attracted to Wine of Cardui when she was discouraged and beyond the help of physicians—if she hadn't been beyond doctor's help she probably never would have come to take Wine of Cardui. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui, and try it now. Remember that headaches mean female weakness. They are from the same cause as the irregular flow. Cure one and you cure both. Do not postpone your case. Secure a bottle of Wine of Cardui today. All druggists sell $1.00 bottles of Wine of Cardui.

WINE of CARDUI

Raising Them on a Bottle.

A large bottle may be utilized for making a handy watering device for chickens, rabbits, etc., by constructing a rack, as illustrated, of a piece of board and pieces of plastering lath. The bottle is held in place by a wire

THE WATERING DEVICE.

which passes from one slanting support to the other. The bottle is filled with water, then the mouth is turned down and submerged in a cup of water. The device works automatically. If a small cup is used, little filth can get into the water.—Practical Farmer.

Why Some Eggs Do Not Hatch.

Some of the reasons why eggs do not hatch are inbreeding, disease, poor food, poor shelter, too much or too little exercise, too young or too old fowls, too many hens with the cock, laying too many eggs. All these produce debility. Eggs that will hatch well under hens will hatch well in an incubator. If they do not, the operator is at fault.

Egg Producing Food.

There is no better egg producing food than a combination of oats, bran, corn, green stuff and insects, with the average waste of the average kitchen or dairy, and you don't have to pay 5 cents per pound for any of these.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newsom, of Decatur, Ala. "For three years," she writes, "I endured insufferable pain from Indigestion, Stomach and Bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I am completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50 cents. It is guaranteed by R. R. BELLAMY, druggist.

The Summer Season Is Opening Up Fine!

The great public knows how to appreciate good things. Our May business was a record breaker, the largest we have ever had.

While we thank our friends and customers for their liberal patronage during the month of May, we are trying now hard to heap new laurels on June's head. Our big store on Front street is kept busy all the while. If you haven't been trading with us we would like to know the reason. We want your business. We have just received lots of new goods this week.

In our millinery department, I think the young ladies can show you the greatest variety of hats in North Carolina. Having closed out one of the best Hat Houses in Philadelphia of a large quantity of their lots, we are now selling 79c hats for 48c and 69c hats for 38c and 50c hats for 25c. We have as many hats as you want for 10c each.

We have a handsome line of new Tuscans in flats and shapes; hats that are worth $1.25 for 98c. A grand assortment of flowers that are fresh and new. We are selling them cheap. A great many flowers we are running at 10c each to clean out the different lots, some of them were worth 50c per bunch. We have a great many Roses at 10c per bunch, extra large. A nice line of new fruits, grapes and cherries. A new line of Daisy Wreaths that sold at 50c now 29c.

Ribbons! Ribbons! They are much worn this year—more so than they have been in ten years. On our counters you can see as many as 5,000 rolls Ribbon; nothing but what you can get if you call for it. Our prices are much cheaper than regular stores. In 10c. Ribbons we will sell as good a line as can be sold anywhere for 10c. A big line of Sash Ribbons in Nos. 60, 80 and 100, from 39c. to 60c. yard. New Laces, appliques and allovers; for pretty goods in this line we think we are able to compete with any in quantity, styles and prices. We have allover lace from 20c. up to $3.00 yard; Val. Lace, 10c. doz. up to $1.50 doz.

We have a grand variety of patterns in 25 and 50c. per doz. laces. We have a full line of Embroidery and Insertions, of which you can make a nice selection at popular prices. In Ladies' Muslin Underwear we have an enormous stock, all pretty goods, made with felled seams and double-stitched full sizes. Corset Covers, Night Gowns and Skirts—we can please your taste and your pocket book. Ladies ready to wear skirts—we have received a large shipment this week, one of overskirts and one of underskirts. In top skirts we have them nicely made with corded pleats, which we are running at $1.50 each.

Beautiful black and gray skirts with the new style band pleat we are selling at $2.50, $2.75 and $3. We have a large line for $3, $3.50, $4 and $4.50 each. We manufacture skirts for Ladies who want them made to their measure.

In the Cloth Department, we have just received 5-piece black Piques with extra large cord that we are running at 9c per yard. We have about 1,000 yards fine 10c lawns slightly misprinted in some places, we are running at 6c. Three thousand yards unbleached shirting we are selling at 4c a yard. A splendid line shirtwaist silks at 48c a yard. A fair quality of bleaching in remnants at 5c a yard. A lot of fine cambrics in remnants 2 to 10 yard pieces, assorted qualities up to the best, for 6c a yard. Heavy cottonade pants cloth for 10c a yard. In new Dress Goods we have received a nice line of black goods, also nice Ginghams. You must know we handle everything. You can get everything. You can get everything your memorandum calls for. We punch your cards and give presents free. We do a large business, but we need your assistance. Come to see us when in need of anything in the Dry Goods line.

The Morning Star.

WILMINGTON, N. C.

SATURDAY MORNING, JUNE 20.

CABINET DISCUSS THE GALVESTON MATTER.

President Thinks a Show of Force Inexpedient--Navy Department Must Await Advice of Department of Justice.

By Telegraph to the Morning Star

WASHINGTON, June 19.—Except to announce that "the Galveston matter is in the hands of the attorney general and nothing on the subject will be said at this department," Secretary Moody refused to discuss to-day's cabinet meeting or the probable action of the department in view of the revised opinion of Attorney General Knox. He desired to be placed in the attitude of saying nothing on the subject, and he requested Rear Admiral Bowles, who advanced the contention regarding the rights of the government, to be equally mindful of the President's wishes as to silence on the subject.

Modification of the attorney general's opinion, which in its unrevised form already had been communicated to Secretary Moody, somewhat disarranges for the moment the programme of the department as to a show of force. The President thinks a show of force under the circumstances will be inexpedient, and the Navy Department, therefore, must content itself with awaiting the advice of the Department of Justice in the matter. Meanwhile, it has instructed its agents at Richmond not to interfere with the order of the court until specifically instructed by the department.

It was learned to-day that all the workmen employed by the Trigg company left the yard when the company went into the hands of a receiver, and the government is experiencing some difficulty in securing laborers. This will prevent the vessel being ready for launching next Monday, and it is hoped the department of justice in the meantime will have prevailed on the local court officials at Richmond to withdraw from what it regards as being an illegal position.

Secretary Moody to-day requested the attorney general to instruct the proper district attorney to enter into a stipulation regarding the cruiser Chattanooga, which has been attached by creditors of the New York Shipbuilding Company, that the government rights may be adequately protected.

As for the other twelve warships contracted for by the companies composing the United States Shipbuilding combine, the Navy Department, while apprehensive of the results of the financial embarrassments of the concern, has not been informed that work on any of the vessels has been interrupted as yet and for the present Secretary Moody can take no action.

The case of the Galveston has been forced to a test, so that the government may be sure of its ground in the event of complications with the United States Shipbuilding Company.

Secretary Moody will take no action for the present on the appeal of Rear Admiral Bowles for troops to protect Lieutenant Theiss and Naval Constructor Groesdeck in charge of the work on the Galveston, from any interference by the local courts. The secretary was asked to order marines to Richmond or to call on the war department for sufficient troops to handle the situation.

GENERAL STAFF OFFICERS.

Appointments Announced in Order Issued from the War Department.

By Telegraph to the Morning Star.

WASHINGTON, June 19.—Secretary Root to-day issued an order assigning Major General S. B. M. Young, as chief of staff, with Major General Henry C. Corbin and Brigadier General William H. Carter, as the other general staff officers. Brigadier General Tasker H. Bliss, is to become president of the war college. The order will take effect August 15th.

It was stated by Secretary Root that upon the retirement of General Young next January, Major General Adna R. Chaffee would become chief of staff. Both Generals Young and Chaffee will be made lieutenant generals.

MARCUM MURDER TRIAL AT JACKSON.

Jury Failed to Agree on a Verdict and Were Discharged by the Court.

CHANGE OF VENUE ORDERED.

The Next Trial Will Be at Cythiana, Ky., a Hundred Miles from Jackson—Jett and White in Jail at Lexington. Still a "Reign of Terror."

By Telegraph to the Morning Star

JACKSON, KY., June 19.—But for one juror, Curtis Jett would have been convicted here to-day for the murder of J. B. Marcum, and a majority of the jury also favored the conviction of Thomas White. Both are to-night almost one hundred miles from home in jail at Lexington and their next trial will be at Cynthiana, more than one hundred miles from Jackson, away from the mountains and in the Blue Grass region, under very different conditions from those existing in Breathitt county.

The interest in the change of venue to-day was second only to the verdict. When Judge Redwine refused to hear arguments on the change of the location it was stated by many in the court house that the presiding judge had heard from Governor Beckham, who is generally believed to have had something to do with the change of venue to Harrison county, which is in the eighteenth judicial district in Kentucky, where J. J. Osbourne is the circuit judge, T. P. Fryer is the commonwealth's attorney, and the sheriff and other court officers are also favorably kown.

With such general confidence in the surroundings of the next trial there is a general feeling here that "everything is for the best after all." If the verdict had been one of conviction the residents here feel that violence would have followed and that it would have extended to others than witnesses, jurors and those who had taken part in the prosecution.

Colonel Williams is at Frankfort to night conferring with the Governor regarding the withdrawal of the troops. It is understood that he has advised the Governor that no number of troops can stop the lurking fire-bugs or hidden assassins, but that at least one company should be kept in Jackson as long as Provost Marshal Longmire is kept in charge of the town. There is a feeling of relief here to-night so far as old scores are concerned, but there is still a reign of terror because it is believed that others "have been marked."

JACKSON, KY., June 19.—The jury in the case of Jett and White, charged with the murder of Lawyer James B. Marcum, was discharged to-day, having been unable to agree. At 8 o'clock the jury filed into the court room and Foreman Richard Millard said: "Your honor, we find there is no chance of coming to an agreement."

Judge Redwine said: "I will have to keep you gentlemen together until Saturday unless you get a verdict sooner. There is no reason why a verdict should not be reached in this case."

Foreman Millard said: "One man has as much right to his opinion as another, and he may stick to it."

It was believed from this there was only one man between the verdict of guilty or not guilty, and it was conceded that only one juror was then for conviction, and it was said that the question of punishment had not been considered at all. Later the jury again reported it was unable to agree, and shortly after 9 o'clock it was discharged, so that there will be another trial. The dominant faction evidently expected acquittal, but there was at least one juror who would not so report.

The scene after the announcement was in no wise exciting. Some started to clap hands but were stopped by the court. The guards took immediate possession of the prisoners and they were closely guarded back to jail. People gathered around the court house in knots, discussing the case, but there was no disturbance nor outward sign of trouble.

Attorney Byrd, after consultation, made a motion for a change of venue. Judge Redwine refused to hear arguments but of his own accord changed the venue to Cynthiana, Harrison county, at the next term of court. Cynthiana is not in Judge Redwine's district. He surprised the spectators by ordering the prisoners sent to Lexington under a detachment of soldiers and accompanied by Elisor Jones.

TEN PERSONS KILLED

Collision of Trains on the Illinois Central Near Raymond, Iowa.

By Telegraph to the Morning Star.

WATERLOO, IOWA, June 19.—An Illinois Central passenger train which left Omaha at 7:50 last night collided head on with a freight train just west of Raymond, Iowa, at 2:40 this morning. Ten people were killed including both engineers and firemen and a mail clerk, and two persons were seriously injured. It took four hours to clear the track of the wreckage.

The trains met at a curve. The passenger train, which had the right of way, was going at the rate of fifty miles an hour. The freight crew is said to have misunderstood orders.

ARRESTED IN BALTIMORE.

Former Postmistress at Maysville, Ga., Charged With Embezzlement.

By Telegraph to the Morning Star.

BALTIMORE, June 19.—Dora Campbell, 26 years old, former postmistress of Maysville, Ga., was arrested here to day on the charge of embezzling postal funds. She resigned her position in Maysville, it is said, last May and came here for treatment at a hospital, where she registered as Dorothy Herndon. Miss Campbell is held at police headquarters for the action of the United States authorities.

THE POWERS AND SERVIA.

Russia Announces Its Intention to Enter into Relations—British Minister to Withdraw from Belgrade.

By Cable to the Morning Star.

BELGRADE, June 19.—The following notification was gazetted to day: "The Russian minister here has informed the minister of foreign affairs that he will enter into relations with the Servian government to-day, as the Czar had been pleased to recognize Prince Peter Karageorgevitch as King of Servia."

As Foreign Minister Kalivics officially visited the Russian legation today, the formal relations appear to have been already resumed.

"The position of the regicides under the new king is freely discussed and it is generally expected that they will be promoted and pensioned and then gradually removed.

The provincial government is very short of funds and has been unable thus far to raise money in consequence of its status not being legalized. The government found the treasury practically empty and has no means of obtaining money, the banks having refused to float even a small loan.

British Minister Withdraws.

LONDON, June 19.—In the House of Lords to-day Foreign Minister Lansdowne announced that the British minister to Servia had been instructed to withdraw from Belgrade for some time, on the arrival there of King Peter, and in the meanwhile to do nothing which could be construed as a recognition of the new government. Lord Lansdowne expressed indignation at the crimes at Belgrade and said he thought it was not desirable that Sir George Bonham, the British minister, should be in that city when the new regime was inaugurated. The British minister would, therefore, be absent when the new reign was inaugurated.

RICHMOND, VA., STRIKE.

Few Cars Running--No Disorder--Strikers Unyielding—Conference.

By Telegraph to the Morning Star

RICHMOND, VA., June 19—A few street cars were run regularly over the Main street line, the most important one in the city, during the greater part of the day. They were met with jeers and objurgations at some points in their course, but were not otherwise disturbed. There has been no disorder of moment in any part of the city. The cars were withdrawn at nightfall. Officials of the company assert that they will be running full schedule on all lines within two days. The strikers, however, are unyielding, and it looks like a fight to a finish. There was no arrival of strikebreakers in numbers to-day, but individuals applied to the company for employment and were taken into service. A conference between representives of the labor council and Manager Huff of the railway company this afternoon was without result, it is understood. The cars to-day were generally well filled with passengers.

THE WORLD'S COTTON.

Total Visible Supply as Shown by Secretary Hester's Statement.

By Telegraph to the Morning Star.

NEW ORLEANS, June 19.—Secretary Hester's statement of the world's visible supply of cotton, for the week ending June 19th, issued to-day, shows the total visible to be 2,374,599 bales, against 2,470,880 last week and 2,608,753 last year. Of this the total of American cotton is 1,970,599 bales, against 1,461,880 last week and 1,700,753 last year, and of all other kinds, including Egypt, Brazil, India, etc., 1,104,000 bales, against 1,109,000 last week and 908,000 last year.

Of the world's visible supply of cotton there is now afloat and held in Great Britain and Continental Europe 1,326,000 bales, against 1,515,000 last year; in Egypt, 38,000 bales, against 89,000 last year; in India, 700,000 bales, against 498,000 last year, and in the United States, 310,000 bales, against 508,000 last year.

ATTORNEY GENERAL'S OPINION

The Right of the Government to Disregard the Injunction of Virginia Court and Seize the Incomplete Warship Strongly Affirmed.

By Telegraph to the Morning Star

WASHINGTON, June 19.—The time of the cabinet meeting to-day was consumed in large part by the consideration of the legal questions involved in the decision of the United States government to disregard the decision of the court of Virginia and seize the incomplete gunboat Galveston at the Trigg ship yards in Richmond. Attorney General Knox presented a carefully prepared opinion on the subject, strongly affirming the right of the government to disregard the injunction granted yesterday in the Virginia court which forbids the resumption of work on the Galveston pending a settlement of the claim of the sub-contractors who have not been paid for material furnished.

In his opinion in the letter addressed to the President, Attorney General Knox states that the letter of Secretary Moody raises the question of the right and power of the United States to take immediate and complete possession for all purposes, of vessels of the United States in course of completion under contracts with shipbuilders when there has been a breach of contract with the latter. The question, he says, actually affects three vessels at present and might at any time involve any or all public vessels under construction by private parties. For this reason he declares the subject one of vital importance in respect to national and sovereign interests. Attorney General Knox recites the terms of the contract with the Trigg company, which contains an express recognition of the paramount title and lien of the government, and after quoting at length statutes bearing on the subject of attachments against property in which the United States have or claim an interest, says:

"The right of a party in ordinary litigation to a release of property from attachment upon giving a bond for indemnity is fundamental. That doctrine was recognized in the debate on the act of 1864. It manifestly applies with greater force and reason in a case affecting the government as *parens patriae*, than where the interests of private litigation alone are involved. The statute enables the government, although not a party, nor in general subject to be made such, to intervene without prejudice and to invoke that doctrine.

"It is especially significant that Section 3753, which is, of course, a part of the supreme law of the land and binding throughout the union, expressly refuses to recognize any right whatever to seize or attach property of the United States or property held, owned or employed by it. Quite apart from the statute, and because of the nature of the case, it is impossible, on primary grounds, to yield assent at all to the idea that any instrumentality of the government—in this case an instrumentality of prime importance—may be taken into custody and held under any adverse authority whatever. This view applies, in my judgment, whether the adverse custody should assume to attach upon the instrumentality as a completed thing or upon one in process of creation.

"While, however, it is not to be doubted for a moment that the United States is entitled to the undisturbed possession and control of its property and of property in which it is interested to the extent of that interest, and that this possession and control are exempt from the process of every court, yet, Congress, by the act of 1864, providing an orderly and peaceful solution of controversies that may arise between parties claiming adverse to the United States, under the terms of which the utmost rights of all claimants are preserved without the functions of the government being in the lightest degree disturbed.

"It will be observed, however, that this act is not mandatory in its provisions and that in a palpable case of improper interference with the government's rights the strong executive arm may be relied upon for the protection of its sovereignty, the language of the act being that the secretary of the treasury may in his discretion cause such stipulation to be entered. This is a case in which I think that discretion should be exercised.

"The nature and necessities of the subject, the sovereign claim and interest, the object to be gained, the words of the statute, the fair inferences and clear reservations, all convince me beyond doubt that the stipulation to be entered into is an engagement on behalf of the United States which shall be addressed to and filed with the particular court, under proper reserve of submission to the jurisdiction, whereupon discharge of the property as a matter of course would follow, and adverse claimants would have the opportunity of establishing in accordance with the law their respective claims against the bond of indemnity thus provided.

"From another point of view a certain analogy is furnished by the laws relating to the removal of causes, under which, when the various statutory reasons exist, a petition for removal with sufficient security makes it the duty of the State court to proceed no further in the cause, and in effect oust its jurisdiction and confers jurisdiction upon the Federal court. So, here, I cannot doubt that the stipulation, when presented and entered into as the engagement of the United States, will operate forthwith to discharge the property and free it from the State jurisdiction that the chancery court of Virginia, upon the entry of this instrument and certain of the law now invoked, will take whatever action may be necessary or desirable to conform its records to the supreme law and to prevent any clash of authority.

The cabinet after considering this opinion unanimously decided that the government's case was sound. It is intimated that information will be conveyed to the Virginia justice who granted the injunction in this case, that he has exceeded his proper functions and it is expected that he will withdraw from what the attorney general and the President regard as an untenable position, thus avoiding any clash at Richmond.

By the President and the members of the cabinet the action taken at the meeting is regarded as of the highest importance. The question raised is new and almost unique. Both the President and his advisors gave it the most careful consideration.

It is understood that the opinion of Attorney General Knox as submitted originally to the President and cabinet was modified slightly before it was made public. It was stated yesterday, on excellent authority, that the attorney general in his opinion upheld the right of the secretary of the navy to use force, if necessary, to carry into effect his orders. It was regarded by the cabinet, it is said, to be inexpedient to precipitate that question at this time as it was believed to be entirely likely that a way would be found amicably to adjust the apparent differences between the Virginia court of chancery and the authorities of the government.

Practically the entire time of the cabinet to day was devoted to the consideration of the question relating to the Galveston.

POSTOFFICE DEPARTMENT.

The Ryan Turf Investment Case—Mr. Christiancy—Appeal of Metcalf.

By Telegraph to the Morning Star.

WASHINGTON, June 19.—Postmaster General Payne has received a report from Assistant Attorney General Robb in reply to the former's request for a statement whether the decision of the Postoffice Department in the Ryan turf investment case, signed by former Acting Assistant Attorney General Christiancy is in accordance with the law and the facts. Mr. Payne is not ready to make the report public. Mr. Christiancy is still under suspension. Postal officials are in touch with him and it is believed that final disposition of his case is delayed with a view to securing further information from him concerning the administration of his office.

Postmaster General Payne has not announced his final action on the appeal of former Superintendent Metcalf, of the money order system, for a suspension of the order of dismissal, but the disposition of the appeal is foreshadowed by a suggestion from Mr. Payne that Metcalf was convicted on his own statement at a full hearing.

LYNCHING IN MONTANA.

Battle With Outlaws—Officers Killed. One of the Band Taken from Jail and Hanged by a Mob.

By Telegraph to the Morning Star

GLASGOW, MONT., June 19.—William Hardee, the condemned murderer, who with three other prisoners escaped from the city jail in this city two weeks ago after killing one guard and beating almost to death two others, was shot and killed late Monday afternoon in the Bad Lands, seventy-five miles from this city, after a desperate battle with the posse under Sheriff Cosner. Charles R. Hill, one of the posse, received wounds from which he died in a short time. Fred McKinney, Hardee's outlaw companion, succeeded in escaping after the battle, but his capture is believed to be certain.

When the news reached this city last night a mob was quickly formed. The guard at the jail was overpowered and Jack Brown, one of Hardee's companions, who was recaptured, was taken from his cell and hanged from a window in the county court house.

FIRE AT ROCHESTER, N. Y.

Wholesale Liquor House Burned Out--The Loss Estimated at $150,000.

By Telegraph to the Morning Star.

ROCHESTER, N. Y., June 19.—Fire was discovered in Fee Brothers' wholesale liquor house on Water street this evening. It originated in the subbasement used as a wine cellar below the bed of the river, flush on the bank of which the building stands. The sensational feature was the attempt of the fireman to fight the fire from the rear of the building. To do this ladders were lowered into the bed of the river and three firemen carried hose through an adjoining building and jumped into the river. They stood in water up to their shoulders, holding hose directed on the burning building. Several firemen were injured by falling glass and overcome with smoke. The loss is about $150,000.
